Exempt from this section only are Single Family Residences and their associated development per CCC 11.82.060. An applicant seeking to develop property which requires a development permit, shall submit with the permit application this certified statement, which lists each of the evaluation criteria and shall indicate whether the criteria "applies" or "does not apply" to the site or development. "Unknown" or similar responses will not be accepted.

If the development meets criteria A, B, C, or D or if the site or development meets any two of the remaining criteria, the Department will direct the applicant to determine the vulnerability rating for the development pursuant to Section 11.82.050 Aquifer Recharge Areas. If the development has a high or medium vulnerability rating, the development shall be subject to the performance standards of Section 11.82.060.

If an applicant's statement asserts that the criteria do not apply to the development, the Department will accept the statement and proceed with the permitting process. If any statement is incorrect, the applicant will be advised in writing to either; (a) provide an amended statement adding the evaluation criteria as being applicable and determine the vulnerability rating of the development pursuant to Section 11.82.050, or (b) present sufficient countering information clearly establishing that the basis for the Department's concern is incorrect. If the applicant selects to proceed under (b), upon receipt of the applicant's information, the Department shall review the information and obtain whatever additional assistance may be required to resolve the issue. NARRATIVE

The project is a 12.0-acre subdivision located on State Route 150 in Manson, Washington. The site consists of lots A, B, and C of short plat #3391 with parcel numbers 282136681140, 282136681141, and 28213681142 (figure 1). The plat will consist of 40 residential lots and remaining tracts (figure 2). The site has public water, sewer, and irrigation utilities. There is no other development.

Lot areas will be 8000 square feet and larger, complying with the Urban Residential 2 zoning. The surrounding neighborhood consists of residential lots similar in size to the proposed subdivision. Large ranch style homes will be constructed. Amenities will include ~~a large park area with a playground and~~ limited use community swimming pool. There was going to be a park originally but the plan has changed and it sounds as if the narrative wasn't updated. There will be no park. There will be a pool though. The pool will be located at tract A. Tracts B and C will be used for stormwater retention.

Thanks, Austin
